ASSIGNMENT OF PATENT APPLICATIONS

WHEREAS, Endomed, Inc., a corporation organized and existing under the laws of the State of Arizona (hereinafter, "Assignor") is the owner of the entire right, title and interest in and to the pending patent applications identified in Schedule A attached hereto and all foreign and domestic patents based on said pending patent applications (hereinafter, the "Patent Applications"); and

WHEREAS, IMPRA, Inc., a corporation organized and existing under the laws of the State of Arizona (hereinafter "Assignee"), is desirous of acquiring the entire right, title and interest in and to the Patent Applications in connection with the settlement of litigation between the Assignor and Assignee; and

WHEREAS, Assignor and Assignee have entered into a confidential settlement agreement pursuant to the terms of which assignee is to acquire all right, title and interest of assignor in and to the Patent Applications; and

NOW, THEREFORE, in consideration of the foregoing, as well as other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor hereby sells, assigns, transfers and sets over to Assignee, its successors, legal representatives and assigns, the entire right, title and interest of Assignor in and to the Patent Applications and any and all letters patent that may be granted therefrom in the United States and throughout the world.

Assignor authorizes and requests the United States Commissioner of Patents and Trademarks and any foreign patent records office, to record Assignee as assignee of the entire right, title and interest in and to the Patent Applications for sale, use and enjoyment of Assignee, its successors, assigns or other legal representatives; including if applicable, any rights to past damages in connection with such applications.

Assignee shall be solely responsible for preparing and filing all additional documentation, including, but not limited to, the execution and delivery of any and all affidavits, declarations, oaths, assignments, powers of attorney, as may be required to perfect or record the assignments of the Patent Applications with the United States Patent and Trademark Office and equivalent offices and agencies in other countries or political subdivisions thereof. Assignor, including its employee, William M. Colone, the inventor of the Patent Applications, shall provide assistance in situations (including execution of particular documents) Assignee determines to be necessary for the prosecution of the Patent Applications.

This Assignment shall be governed by, construed and enforced in accordance with the laws of the State of Arizona without giving effect to its conflict of law rules. If any part of this Assignment is rendered void, invalid or unenforceable, such determination shall not affect the validity of enforceability of the remainder of this Assignment.

IN WITNESS HEREOF, Assignor has caused this instrument to be executed by its duly authorized corporate officer effective this 10th day of May, 1999.
